## IPL Permanent Hair Reduction

### IPL (Intense Pulsed Light) Permanent Hair Reduction

Excess body hair is a common complaint for our male and female clients. Our versatile IPL services provide safe and effective hair reduction or removal for face and body. IPL is the only clinically-proven method of permanent hair reduction and, because it is virtually pain free, it's no surprise that it's our most popular treatment.

We want you to have the best IPL treatment that suits your skin type. That's why our specialists offer two different hair removal solutions and each can be tailored to your individual needs:

#### 1 Formatk 'All-in-One'

Ground-breaking technology which offers IPL and a range of other skin and nail perfecting treatments.

#### 2 Lynton Luminette

Can treat exceptionally delicate hair problems.

#### Only at Yuu, for you...

Many clients hesitate when considering IPL treatment due to anticipated high costs. At Yuu, our IPL treatments are priced per session to help you manage your beauty budget. We do not expect you to pay in advance for a course of treatments – all we ask for is a small deposit, redeemable against a future booking. If you're tired of other hair removal methods, then IPL is one affordable luxury you can't afford to miss!

#### Benefits

- safe and virtually pain-free procedure
- most effective form of hair reduction available
- long lasting results
- tailored IPL treatment preferences
- flexible payment options

Please note: an essential patch test at the cost of £20 must be carried out prior to any treatment to determine IPL effectiveness and suitability for your skin. This cost is redeemable against the purchase of future IPL treatments.

## Skin Rejuvenation & Nail Fungal

### Skin Rejuvenation

There are many reasons why skin begins to sag and lines form: pregnancy, weight loss, sun exposure and ageing are just some of the causes. The IPL Rejuvenation process uses IPL (Intense Pulse Light) to heat the under-layers of the skin, stimulating the production of collagen which is the substance that keeps the skin firm and supple. More collagen means firmer, smoother skin with a visible reduction in fine lines and wrinkles, particularly on the face, neck and décolletage. Hands, which can age much faster than other parts of the body because of their constant exposure to water and harsh chemicals, can also be rejuvenated to look smoother with a more even skin tone.

After a course of IPL Rejuvenation, skin appears firmer and fuller.

### Nail Fungal

Did you know that hand and nail fungus are increasingly common ailments? We at Yuu Beauty see countless clients, desperate to find a fast-acting, effective remedy to this unsightly problem. Thankfully, we are the first range of skin clinics to offer an exclusive, medically proven IPL treatment courtesy of world-class aesthetic company, Formatk. This is a truly unique and powerful therapy with often remarkable improvements after one session. Treatment of all ten fingers/toes is recommended to combat spread of fungus.

### Fungal Nail Treatment

8-12 treatments are recommended to effectively reduce and get rid of bacterial fungal on nails.

## Waxing & Threading

### Lycon Hot Wax

Lycon is the latest waxing brand favoured by A-listers. Formulated using a series of aromatherapy ingredients, Lycon Hot Wax is a gentler yet more effective treatment which can remove hairs as short as 1mm. This is a low-temperature procedure where the wax shrink-wraps around the hair, pulling it out of the follicle (as opposed to pulling the skin). The result is much smoother skin – perfect for sensitive areas!

## Medical Microdermabrasion

**Medical Microdermabrasion & Diamond Peel**  
Microdermabrasion is one of the most popular aesthetic procedures on the market. Here at Yuu, we offer two different options for this type of treatment – Medical Microdermabrasion and Diamond Peel Microdermabrasion.

### Skin Scan (£10 redeemable against any treatment booked)

Before you begin, it is important to assess your skin's overall condition and identify any problem areas that are not visible to the naked eye. We offer a 15 minute consultation using a skin scanner (a simple and painless procedure) which will highlight imperfections such as pigmentation, skin unevenness, lines and wrinkles. The scan results enable your therapist to pinpoint specific areas and provide a more effective session.

For Medical Microdermabrasion, our Derma Genesis machine can perform crystal or crystal free treatment, depending on your skin type. This state of the art technology is proven to be clinically effective for issues including dry or oily skin, fine lines and wrinkles, hyperpigmentation, sun damaged skin and scar tissue reduction.

Diamond Peel Microdermabrasion is a slightly gentler treatment, which can be altered according to body area and abrasion level, is a controlled form of surfacing in which diamond grain gently exfoliates the outer layer of the skin. These procedures promote collagen production, and the results are immediate – skin is visibly rejuvenated and firmer.

Microdermabrasion is safe, painless and suitable for face, neck and body. For optimum results, a course of treatments is recommended.

## VeinAway™

### NEW AND AVAILABLE AT YUU!

The VeinAway™ system is one of the world's most advanced thread vein removal technologies on the market, offering quicker results and virtually no pain, compared to other vein removal technologies.

### Your new favourite treatment

The Vein Away machine has arrived at Yuu Beauty Edinburgh where it takes place amongst our already top of the range treatments.

This treatment can be used for many issues including:

- Thread Veins
- Skin Tags
- Milia

It is also more controlled, allowing a more comfortable experience for you. It can be used on sensitive areas including the face and legs. It provides safe and effective treatments with immediate and visible results.

This treatment can also be used to treat skin tags, that can occur as you get older. Skin tags are small growths that develop from when skin rubs against itself. While skin tags aren't painful or harm you, they often snag on jewellery or clothing, or can affect your self-esteem. We can safely remove your skin tags with the VeinAway™ machine quickly and easily.

A milium is a small, raised bump on the skin. It is a type of tiny skin cyst filled with a protein called keratin. Milia are usually each about 1 or 2 millimetres across and are pearly-white or yellowish. They are most often seen on the skin around the cheeks, nose, eyes and eyelids, forehead and chest but they can occur anywhere on the body.

We can treat these safely and effectively with the VeinAway™ machine!

## Juliette Armand Boosters

### Thavma 'Miracle' Booster

40 mins	£50
Course of 10	£450

If you'd like to 'erase' your wrinkles without the use of needles or surgical intervention, then this advanced facial is for you! Thavma Therapy utilises EFFECTOX™ technology which inhibits the formation of lines and wrinkles. It also helps to protect skin from signs of ageing thanks to a special blend of highly active yet harmless ingredients. This facial has been described as the latest "miracle of Cosmetology" – so if you're looking for guaranteed results (average clinical tests show a reduction of 50% wrinkles or lines within 28 days), give it a try!

### Opsis 'Look' Therapy

40 mins	£50
Course of 10	£450

For those who want wider, younger-looking eyes (and don't want to resort to upper eyelid surgery), Opsis is a revolutionary new eye contour treatment that 'opens' the eyes by activating and reinforcing the natural function of cells in the eye area. Based on high-end technology known as ANTITOX™, Opsis Therapy employs active ingredients to deter wrinkles, reduce black circles, combat swelling and dehydration. Clinical tests show an average of 60% reduction in eye irritation within 20mins and 60% reduction of black circles after 8 weeks. In other words, excellent results are guaranteed.

### Chronos 'Time' Booster

55 mins	£60
Course of 10	£500

Forget about 'fillers' that use a mysterious pharmaceutical substance to fill out fine lines – the latest breakthrough involves reducing the depth of lines by creating a shield for the skin. Using a unique blend of active ingredients, Chronos Therapy stimulates the production of collagen and literally creates an active shield on the skin's surface. This makes it difficult for any 'intruder' to disrupt the biological balance and cause the skin to wrinkle. The main benefits of Chronos Therapy include reducing the length and depth of fine lines plus stimulating the production of glycosaminoglycan (which helps to maintain skin structure) and collagen. If it's younger-looking skin you want, we'd highly recommend this incredible treatment.

### NEW AND EXCLUSIVE TO YUU!

#### DermaQuest™ Peels

40 mins	£50
---------	-----

##### C Infusion Peel

Who is this for? Preventative aging treatment for dull, uneven skin tones. This peel brightens and hydrates the skin as it removes layers of sluggish skin cells. Ferulic acid, orange stem cells, and a plethora of plant extracts infuse the tissues with the antioxidants and hydrating properties to contribute to barrier repair.

**Benefits:** Evens skin texture. Brightens hyperpigmentation. Hydrating. Increases cellular turnover. Works to preserve skin cells through powerful antioxidants.

##### SkinBrite Peel

Who is this for? Clients with melasma, hyperpigmentation, uneven skin tone and dull lifeless skin with hormonal breakouts Battle deep, resistant pigmentation due to hormones, sun damage or long-standing post-inflammatory hyperpigmentation. Not for the faint of heart. Most experience light sloughing to deep sheets of peeling that precedes the new, smooth, even-toned and revitalized skin. Not recommended for clients with sensitive or delicate skin.

**Benefits:** Inhibit stubborn pigmentation for a brighter, more even complexion. Peels away thick layers of surface skin cells. Decongests follicle buildup.

#### DermaQuest™ TCA Peel

55 mins	£125
Course of 3	£330

Working at a deeper and more powerful level than most other peels, TCA Peel involves the application of Trichloroacetic Acid to safely remove dead skin cells on the surface of the skin.

Performed by our highly trained therapists, this type of peel is an incredibly effective treatment that produces remarkable results after just one treatment.

TCA is an intensive chemical peel which:

- dramatically reduces the appearance of fine lines and wrinkles
- reduces pigmentation, sun spots and unwanted freckles
- rejuvenates sun damaged skin
- smoothes and tightens the skin's surface
- eradicates bacteria that causes acne, clogged pores and other skin problems

As TCA involves the use of chemicals, the skin will start to shed its dead cells within 3 days. The general healing time is 7-10 days at which point clients will see the appearance of younger-looking, firmer and smoother skin. TCA might be one of the more 'uncomfortable' procedures but it's definitely one of the most effective! We at Yuu are pleased to recommend TCA to anyone with ongoing skin concerns.

## Dermapen™

One technology that has been proven to deliver amazing results is the Dermapen™. The treatment is a form of collagen induction therapy where a series of needles penetrate the skin causing thousands of micro injuries at a vertical angle using a specialist medical device, for both faster and more precise needle penetration. The procedure leads to increased collagen production, which effectively repairs scars, reduces hyper-pigmentation and renews tired looking skin.

The Dermapen™ has revolutionised micro skin needling, making it easier, safer and less painful to get maximum results compared with traditional Derma Roller skin needling. The results are more extraordinary, longer lasting and treatment time is faster, making this a top choice for anyone looking to achieve younger and smoother skin.

The benefits of Dermapen™ Treatments are multiple, and the most effective ones are:

- Skin Tightening, Natural Collagen
- Induction, Lifting & Rejuvenation
- Treats Active Acne & Acne Scars & Wound Healing
- Reduces Wrinkles & Fine Lines
- Minimises Pore Size
- Improves Stretch Marks
- Improves Rosacea & Pigmentation Disorders

When asked by a US magazine PEOPLE Jennifer Aniston quoted micro-needling as her favourite to keep her youthful skin: "I do micro-needling! I just learned about it a couple months ago from a facialist in New York. It allows the serums and whatever products you're using to really soak in"

# Soprano ICE Skin Tightening

## Soprano ICE NIR Skin Tightening

1 area (25 min app)	£50
2 areas (40 min app)	£69
Course of 5 (25 min app)	£200
Course of 5 (40 min app)	£300

Near-Infrared skin tightening with Soprano Ice is an effective treatment for treating loose skin on many areas of the body. It's commonly used for the face, neck, upper arms, abdomen and hands. It works by passing a safe near-infrared light over the skin, gradually heating the water content deep in the tissue below the skin. This causes collagen fibres to contract and tighten, resulting in the smoothing out fine lines and tightening of sagging skin. Fibroblasts are also stimulated which promote new collagen formation. A lubricant is applied to the skin first and the constant, contact-cooling application of the NIR head, ensures that the outer skin stays cool and comfortable, while the lower dermis is heated to achieve optimum results.

A lubricant is applied and then the NIR hand piece is moved in a sweeping action over the area to be treated. During the whole procedure the temperature of the skin is closely monitored. During the treatment you will feel a warm sensation, but the outer skin is kept cool. The treatment has often been likened to as a hot stone massage.

After treatment your skin may look a little flushed for a couple of hours, but this usually subsides very quickly. You can apply make-up immediately, and you would expect to resume normal activities straight away.

Generally, the best results are achieved after 5 treatments, with 2-4 weeks between visits. After a course of treatment, you may wish to have a top up treatment every 6-12 months to combat the natural ageing process.
