Choose Yuu for a superior you

Since 2007, we've been bringing revolutionary beauty and well-being treatments to a wide range of male and female clients in our Edinburgh and Glasgow salons. Our philosophy is inspired by the Japanese word 'Yuu' which means superior.

We go the extra mile to offer superior and innovative treatments that really work. In fact, Yuu Beauty Edinburgh, was one of the first salons to introduce Diamond Peel Microdermabrasion to UK shores. But that was just the beginning of our journey...

Your on-going needs are important to us and we train therapists to the highest standard to deliver safe and effective results. We like to think our tireless approach to skin health and well-being makes us the reason why more and more clients choose Yuu Beauty.

What's more, our exclusive Beauty Club means you can have access to special treatment rates and countless other benefits! We know you want to look and feel fabulous at a price you can afford. Thankfully, you've made a superior choice and come to the right place...

IPL (Intense Pulsed Light) Permanent Hair Reduction

Excess or unwanted body hair is a common complaint for our male and female clients. Our versatile IPL services provide safe and effective hair reduction or removal for face and body. IPL is the only clinically-proven method of permanent hair reduction and, because it is virtually pain free, it's no surprise that it's our most popular treatment.

We want you to have the best IPL treatment that suits your skin type. That's why our specialists offer two different hair removal solutions and each can be tailored to your individual needs:

1 Formatk 'All-in-One'

Ground-breaking technology which offers IPL and a range of other skin and nail perfecting treatments

2 Lynton Luminette

Treats exceptionally delicate hair problems

Only at Yuu, for you...

Many clients hesitate when considering IPL treatment due to anticipated high costs. At Yuu, our IPL treatments are priced per session to help you manage your budget. We do not expect you to pay in advance for a course of treatments - all we ask for is a small deposit, redeemable against a future booking. If you're tired of other hair removal methods, then IPL is one affordable luxury you can't afford to miss!

Benefits

- safe and virtually pain-free procedure
- most effective form of hair reduction available
- long lasting results
- tailored IPL treatment preferences
- flexible payment options

Please note: an essential patch test at the cost of £20 must be carried out prior to any treatment to determine IPL effectiveness and suitability for your skin. This cost is redeemable against the purchase of future IPL treatments.

Skin Smoothie Diamond Peel & Ultimate Facial Skin Tightening

Before you begin, it is important to assess your skin's overall condition and identify any problem areas that are not visible to the naked eye.

Diamond Peel Microdermabrasion, which can be altered according to face, body and abrasion level, is a controlled form of surfacing in which diamond grain gently exfoliates the outer layer of the skin. This procedure promotes collagen and elastin production. The results are immediate – skin is visibly rejuvenated and firmer. Our machine also offers red light therapy which also stimulates collagen production, meaning it can reduce or delay the visible signs of ageing.

Diamond Peel Microdermabrasion is safe, painless and suitable for face, neck and body. For optimum results, a course of treatments is recommended.

The Ultimate Facial provides luxury exfoliation, muscle-tightening massage and collagen stimulation in one session. Using state of the art technology including diamond peel, radio frequency and skin tightening, this non-surgical facial deeply exfoliates to refresh and smooth the skin. The treatment also builds collagen and elastin whilst tightening and toning the facial muscles. This facial is a must for anyone who wants immediate results and younger-looking, glowing skin. Benefits:

- brighter, tighter and clearer skin
- visible results after one session
- virtually pain-free procedure
- intense collagen boost
- safe alternative to a surgical facelift
- suitable for most skin types

Oxygen with Light Rejuvenation

Oxygen Therapy with Light Rejuvenation is an advanced skin rejuvenation system that combines oxygen facial therapy and the many benefits of light treatment. Oxygen Therapy with Light uses different oxygen levels and heat settings to achieve simultaneous skin-perfecting, repair and firming treatments.

Uses of Oxygen

Pure oxygen can be used in a variety of ways: sprayed onto skin for rehydration, for inhalation and relaxation purposes, to form a regenerating skin mask or to be transported through the skin's surface to strengthen tissue, remove toxins, promote blood circulation and improve firmness of skin.

Uses of Light

Varying light intensities can also be applied to break down irregular skin cell structure, eradicate bacteria and promote cellular renewal. This form of therapy is particularly renowned for its nutritional and healing effects.

As treatments are carried out in a shorter space of time, Oxygen Therapy with Light is ideal for those looking for an effective 'one stop shop' facial with immediate results.

Best for

- stimulating collagen activity
- reducing the appearance of wrinkles, fine lines, age spots and pigmentation
- tightening pores and facial outline of skin
- promoting skin cell renewal
- acne treatment and stabilising oil secretion
- removing extra toxins in the body and eradicating skin bacteria
- boosting immunity of the skin

Benefits

- immediately younger-looking, brighter, firmer skin
- non-invasive and virtually pain-free procedure
- safe with no risk of burning
- variable treatments suitable for all skin types
- shorter course required due to intensity and effectiveness of treatment

MangoBrite is an excellent treatment for age management and adult acne. Rich in Enzymes and Vitamin C. Mango Pulp and Orange Stem Cells gently exfoliate and brighten the skin. Performance ingredients, Lactic Acid increase hydration and improve skin texture while Kojic Acid reduce the appearance of dark spots, giving the skin an additional brightening boost.

DermaQuest™ TCA Peel

60 mins

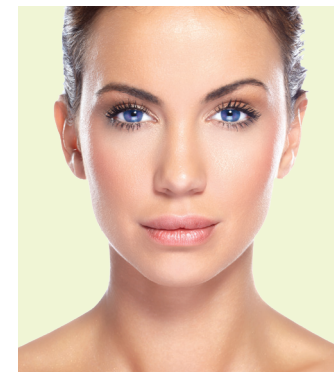

£125

Course of 3

£330

Working at a deeper and more powerful level than most other peels, TCA Peel involves the application of Trichloroacetic Acid to safely remove dead skin cells on the surface of the skin. This type of peel is an incredibly effective treatment that produces remarkable results after just one treatment. TCA is an intensive chemical peel which: • dramatically reduces the appearance of fine lines and wrinkles • reduces pigmentation, sun spots and unwanted freckles • rejuvenates sun damaged skin • smoothes and tightens the skin's surface • eradicates bacteria that causes acne, clogged pores and other skin problems

As TCA involves the use of chemicals, the skin will start to shed its dead cells within 3 days. The general healing time is 7-10 days at which point clients will see the appearance of younger-looking, firmer and smoother skin. TCA might be one of the more 'uncomfortable' procedures but it's definitely one of the most effective! At Yuu we are pleased to recommend TCA to anyone with ongoing skin concerns.

One technology that has been proven to deliver amazing results is the Dermapen™. The treatment is a form of collagen induction therapy where a series of needles penetrate the skin causing thousands of micro injuries at a vertical angle using a specialist medical device, for both faster and more precise needle penetration. The procedure leads to increased collagen production, which effectively repairs scars, reduces hyper-pigmentation and renews tired looking skin.

The Dermapen™ has revolutionised micro skin needling, making it easier, safer and less painful to get maximum results compared with traditional Derma Roller skin needling. The results are more extraordinary, longer lasting and treatment time is faster, making this a top choice for anyone looking to achieve younger and smoother skin.

The benefits of Dermapen™ Treatments are multiple, and the most effective ones are:

- Skin Tightening, Natural Collagen
- Induction, Lifting & Rejuvenation
- Treats Active Acne & Acne Scars & Wound Healing
- Reduces Wrinkles & Fine Lines
- Minimises Pore Size
- Improves Stretch Marks
- Improves Rosacea & Pigmentation Disorders

When asked by a US magazine PEOPLE Jennifer Aniston quoted micro-needling as her favourite to keep her youthful skin: "I do micro-needling! I just learned about it a couple months ago from a facialist in New York. It allows the serums and whatever products you're using to really soak in"
